

Get Rebates for Going Green

Receive Up to \$5,000 in Rebates When You Remodel With Recycled Materials!

StopWaste.Org Small Commercial Green Materials Rebate Program

Do you own or rent a small business in Alameda County? Have you been thinking about making improvements to your commercial facility?

StopWaste.Org's Small Commercial Green Materials Rebate Program is now offering up to \$5,000 in rebates for purchasing green materials in conjunction with other building upgrades.

Cash Rebates + Free Technical Assistance

The Small Commercial Green Materials Rebate Program offers a **cash rebate of up to \$5,000** and **free expert consulting services** to help you maximize available rebates and green designs. Our experts can work with you to evaluate, prioritize and select appropriate energy- and water-efficiency rebates, providing an unbiased opinion on cost-effective strategies. We also offer up to 15 hours per project to advise on specification and selection of appropriate green material upgrades.

Eligibility Requirements

- ✓ Commercial space in Alameda County
- ✓ 10,000 square feet or less
- ✓ Upgrades must be permanent (built-in) and intended for use at least for the terms of the current lease
- ✓ Upgrades must address energy efficiency, water conservation or other comprehensive green upgrades in addition to new materials
- ✓ Work associated with green materials rebate has not been completed prior to enrollment

Rebates are available for the following reused or recycled-content materials:

- Carpet and wood flooring
- Ceiling tiles
- Ceramic tile
- Recycled paint for exteriors
- Building insulation
- Salvaged materials
- Doors and hardware
- Recycled content aggregate
